Description

Pair of small 14K Gold and lapis "button" style earrings with screwback fasteners. Oval cabochons of lapis are about 3/8" by slightly less than 1/4" wide (about 4mm wide). Cabochons are crowned with a decoration of three 1mm granulated-design circles making a small pyramid. The "screw head" of the fastener is a six-petaled flower form with a round center, about 4mm across, with the edges of the petals slightly rounded. Granulated circles about 1mm across decorate the place where the fastener would meet the back of the ear, and a raised gold edge forms a circle around the edge of this part of the fastener. On the top of this circle, extremely difficult to see even with a lighted 40X loupe, is engraved "14K". 3.3g total. Reserve only \$50

Quantity: 1
